

# **VANASTHALI RURAL DEVELOPMENT CENTRE, PUNE.**

## **ANNUAL REPORT APRIL 2005 TO MARCH 2006**

Vanasthali Rural Development Center (VRDC) was established on the 21st of December 1981, with a definite purpose in mind: to work mainly in villages for the welfare of women and children.

In its steady march towards the 21st century, India is making all efforts towards a better life for its people. Still, the village population suffers from neglect and deprivation. The rural society is still denied basic amenities of life, viz. sanitation, hygiene, housing, transportation and medicare, smothering chances for bettering standard of life.

VRDC is a voluntary organization, which feels that the process of rural development has to be initiated at the grassroots level. Social awakening has to be generated at the inner core. We feel that 'education' is the only means, which will break the vicious circle of poverty and ignorance. Good living conditions will follow automatically.

While setting an agenda for its activities, VRDC has given top priority to the 'overall personality development' of the rural woman. We have tremendous faith in her innate intelligence, her resilience and her zest for life. We feel that she is relegated to a secondary status due to social constraints and lack of exposure. So our endeavor is two- fold. We make her the focal point of our activities, so that her potentialities are fully utilized. We also see to it that she becomes a catalyst in the process of rural development. Arranging for formal and non-formal educational activities for rural women is the mainstay of our activities.

The dropout rate in rural schools is high mainly because of total absence of facilities for pre-primary education. The rural child enters the primary school, totally unprepared for the rigorous education there. The very impressionable age-span of 3 to 6 years is of great educational value for laying a solid foundation for a child's future education. Therefore, 'balwadi' (nursery schools) for children in every village is our motto and to train and develop the local young women to raise and run balwadis is our primary activity.

### **AIMS OF THE ORGANIZATION**

- To conduct six-month training courses at village level or other convenient places, thus enabling rural women to start Balwadis, and propagate the importance of education around them. Also we see to it that the cost of training course is kept at minimal so everyone can afford it.
- Early Childhood Education (ECE) is meant to promote the all-round development of a child. The principle of 'education through recreation' is to be followed in balwadi activities. Hence the trainees are introduced to such subjects as child psychology, principles and methods of child education, school management, child health and nutrition. They receive practical training in crafts, games, and songs.
- To start courses and programs for rural women, in order to make them economically independent and also enhance their personalities and self-confidence.
- To publish a bi-monthly magazine for fulfilling these aims, to report progress of the center, and enable women to express their views.
- To conduct camps, book exhibitions, film shows, and informative lectures on health and socio-cultural programs for the personality development of rural women.

We have been fortunate in getting valuable guidance, moral support and generous monetary help from our many well-wishers in India and from abroad. The trustees of VRDC express their gratitude to all the donors. Their benevolence and the zeal of VRDC workers have greatly helped VRDC in achieving its goals.. However, the number of balwadis keeps fluctuating due to various reasons. For example, some of our balwadis are being taken over by the government, to be converted into Anganwadis.(Unisef plan)

## BALWADI TEACHER –A COMPLETE PERSON

The basic qualities of a well-developed personality are: positive self-image, capacity to plan and execute events, self-reliance and self-discipline, ability to understand and lead others and as well as to co-operate with them. In order to achieve this, we organize various events and activities for balwadi teachers, trainees, and our supervisors. Now, after so many years, our teachers are invited by other organizations and schools to train their teachers through short-duration courses.

Taking a regular pay packet to home for her part-time job boosts the self-esteem of the Vanasthali worker. She can also take advantage of interest-free loans for buying sewing machines and bicycles; the former providing a new source of income and the latter facilitating her mobility. Loans are repaid without fail. We rarely have a bad experience.

## PRIMARY SCHOOL AT JEJURI

The Primary school at Jejuri, started in 1996, has shown good results. The school runs up to 4<sup>th</sup> standard primary class. The progress of children is satisfactory. At present we have 192 children from the 1st to the 4th standard. We have received encouraging support from the children's parents on whose initiative this school was started. Parents attend meetings for discussing school activities. A library was started for the benefit of the children, as well as the teachers and parents.

The staff consists of 1 Supervisor, 4 teachers, 1 Sports teacher and 1 Librarian, 3 helpers.

## HOBBY CLASSES FOR GOVT. REMAND HOME CHILDREN AND ASHRAM SCHOOL CHILDREN & MUNICIPAL CHILDREN

Villages lack not only in civic amenities but also in wholesome recreational activities. Our study-cum-hobby classes in remand homes and in government 'ashram' schools at Baramati, Sangamner, Shrirampur, Talegaon-Dhamdhere, Padegaon and Dapodi (Pune) serve a dual purpose. They encourage about 468 destitute children to take up their studies more seriously, as they receive assistance with their homework. Moreover it helps these children to acquire a sense of belonging and commitment towards society in general, a very essential factor in their overall development.

"Chava", "Ranwara" and "Vidyabhyas" these Marathi magazines devoted to general knowledge and recreation for children, are provided in hobby classes and remand homes. Children get plenty of information about wild life, environment, science etc. and also plenty of recreational matter in the form of brainteasers, riddles, stories, poems etc. Our teachers are conducting hobby-cum-study classes in Municipal and Zilla Parishad schools. Around 25,450 children benefit from the activities of 603 teachers. Hobby class activities, i.e., drawing, painting, paper handicraft, books to read, bring some fun and relief in their lives. Although we are not getting any monetary assistance from villagers, they help by providing classrooms and craft supplies. When hobby class camps are arranged for several days in summer and winter vacations, local people provide some snacks or sweets to the children.

The bi-monthly issues this year were compiled, edited and published by centers as follows: Pune, Lonand-Shirwal, Kirloskarwadi, Saswad .

## **FOUR SUPERVISORS –VISIT FRANCE Special program – Silver jubilee year**

On invitation from Entr'inde, France four of our supervisors visited (Saint-Michel sur Orge) France and shared their experience with school children and their parents and the school staff in three different schools in France.

Members of Artisans du Monde and Entr'inde and Partage sans Frontière made all the arrangements for their stay and visits in France. These two organizations and our Indian well wishers supported financially to make this trip possible for the supervisors.

In this 25<sup>th</sup> year of VRDC's work it has provided a new dimension to our activities. Our teachers have seen a new horizon. Low education, different culture, different language was not of any consequence. Our teachers came over these difficulties and reached their target group through the medium of music, handicrafts and off course body language and communication skills other than language. They themselves gained a lot from this international experience. The Mayor of Saint-Michel sur Orge honoured our teachers in a specially arranged function to appreciate their work.
